

*As President of the Geneva College of Longevity Science (GCLS <https://gcls.study>), Dominik Thor provides strategic leadership and oversees the overall administration of the institution. He plays a key role in building and maintaining relationships with external stakeholders, including industry partners, government agencies, and the global academic community. In addition to his leadership role, he directs the academic and medical education programs at GCLS and serves as Professor of Pharmacy.*

*Dominik is also a Visiting Professor at the University of Medicine and Pharmacy "Carol Davila" (UMFCD), where he contributes to the fields of Gerontology, Geriatrics, and Longevity Medicine.*

*With a research background in biomaterials, regenerative medicine, and pharmaceutical sciences, Dominik has authored numerous peer-reviewed publications in the medical literature. His work has led to the development of innovative technologies for cell regeneration, skin rejuvenation, and hair restoration, and he holds multiple patents in both the European Union and the United States. Beyond academia, Dominik is active as an author, angel investor, and CEO of a biotechnology company.*
